SMART HOME CONTROL WITH POWerview® AUTOMATION

Our PowerView® Automation system lets you schedule your Luxaflex® window treatments to open, close or adjust at any time of the day or night with an easy-to-use App or remote control. Instantly enjoy perfect light, optimal privacy, energy efficiency and maximum comfort – even when you are not at home.

Plus, you can control your PowerView® products when connected to your home's existing voice assistant like Apple HomeKit, Amazon Alexa, Google Assistant and more.

Check the Luxaflex® website to discover all the great features that smart home PowerView® window treatments can bring to your home.

Duette® Shades

Available with
PowerView® Automation

VERSATILE – STYLISH – SUSTAINABLE

The unique design of Duette® Shades is beautiful and ingenious. The special cell structure naturally regulates the temperature of a room and insulates your home, softens ambient noise, and reduces energy costs.

All whilst gently filtering daylight. And with three fabric transparencies, you can give every window and room the design and light level it needs, whilst creating a coherent look throughout your home.

Silhouette® Shades

Available with
PowerView® Automation

SOFTLY FILTERED LIGHT

Atmospheric Silhouette® Shades enhance natural light without obstructing your view. Enjoy endless style choices with soft fabric vanes that filter the light beautifully. Simply tilt the fabric vanes to enjoy the daylight whilst filtering

glare and UV rays. From subtle colours and rich structures to modern metallics, you'll experience beautiful, custom-made style with modern smart home control.

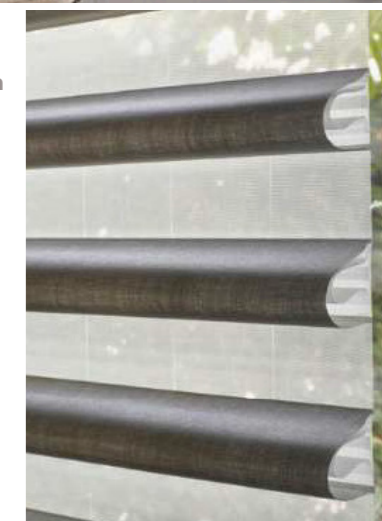

Available with
PowerView® Automation

Pirouette® Shades

TRANSFORMING LIGHT THROUGH BEAUTY

Perfect for lovers of light and the beauty of fabric, Pirouette® Shades capture the unique qualities of both by transforming light entering your home. Whilst bringing the best of the outside in, the unique design offers many moods, from airy sheers in undulating fabrics to luxurious fabric textures. All in one stylish and unique window blind.

Venetian Blinds

Available with PowerView® Automation

A CLASSIC LOOK FOR MODERN INTERIORS – CUSTOMISED FOR YOUR STYLE

Our venetian blinds are made from recycled aluminum with a superb design that offers flexible light control with special design options. From classic looks to luxurious metallics or matte pastels and trendy colours, you'll find

the perfect finish for your décor. As a finishing touch, choose an elegant woven fabric tape to perfectly contrast or complement your personalised blind.

Roller Blinds

Available with PowerView® Automation

A TIMELESS FAVOURITE – SUPERB ATTENTION TO DETAIL

Our elegant styles and beautiful design details deliver a new standard for custom-made roller blinds. This proven design offers countless creative options for every window with smart home control.

From extra-large sizes to hard to reach windows, you can add your personal style with our carefully curated fabrics and exclusive design accents.

Available with PowerView® Automation

Twist® Roller Blinds

SMART HOME READY – FLEXIBLE LIGHT CONTROL

Distinctive Twist® Roller Blinds let you create the perfect atmosphere and light. Just glide the stylish fabric panels past each other in an open, half open or completely closed position to enjoy the light and privacy you desire. No more uncomfortable glare on your TV or lack of privacy in the bathroom. Transform the look and feel of your home with modern textured fabrics, on-trend patterns, glossy finishes and inspiring colour combinations.

Top Down / Bottom Up Control your blind from the top, the bottom or somewhere in between to get the perfect balance of light and privacy. Top Down / Bottom Up is available with Duette® Shades, Plissé Shades and venetian blinds.

Wood Blinds

Available with PowerView® Automation

WINDOWS THAT RADIATE PERSONALITY AND WARMTH

The Luxaflex® Wood Blind collection features natural hardwood's and extra durable faux wood looks for kitchens and bathrooms. From beautiful natural grains, sleek greys, trendy colours or classic whites, you can create a

refined style for your home. Be assured that our FSC® certified wood is sourced from sustainable forests that support the environment to give you peace of mind.

Vertical Blinds

Available with PowerView® Automation

ELEGANT SIMPLICITY FOR LARGE OR SHAPED WINDOWS

Does your window or door have a special shape? Luxaflex® Vertical Blinds are a stylish and practical window treatment for angled windows, bay windows, extra-large sliding doors or grand floor to ceiling openings with glass of unequal height.

Our striking fabric textures, modern metallic looks, or tough PVC styles offer the complete package of light, privacy, and style. When closed, the slats also protect against the damaging effect of UV rays on furniture and floors.

Plissé Shades

Available with PowerView® Automation

STYLE UNLIMITED

Attractive pleats create beautiful effects that play with light and shade in a look that never dates. Plissé Shades complement every window from conservatory and Tilt & Turn windows to patio

doors or hard to Reach windows. Best of all, Plissé Shades can be fitted to your windows or doors without drilling the frame. Enjoy exclusive fabric designs that add elegance and style to your home.

MADE TO MEASURE

Curtains | Roman Blinds | Curtain Fabrics

We are very proud to say that our making up facility is one of the very best in the country. Our made to measure curtains are cut expertly with the pattern matching regardless of how many pairs are required for a room. Corners are mitred and penny weights added to the hems ensuring the curtains hang neatly.

All our blinds are stab stitched, although this is a slower and more expensive process when compared to machine sewn which can show stitching holes. Stab stitching is done by hand only and this keeps the fabric and lining together. All of our blinds come with child safety toggles and meet all child safety regulations.

Italian Leather Gallery

HAND MADE IN ITALY

Modern equipment, the patient craftsmanship of specialised workers and the refined design touch of the best architects give our products an unmistakable cut that is expressed in a vast collection inspired both to classic and contemporary styles.

We are passionate about producing sofas and chairs that look stylish. But to us, comfort and quality are equally as important. It's why we carefully source our leather from some of the finest tanneries around the world.

*"Beautiful well made luxury curtains.
Really quick delivery very happy."*

★★★★★ by Daryl Miller

★ Trustpilot

*"Just received my made to measure curtains....
Absolutely delighted with workmanship and
price too! Wouldn't hesitate to order again....
Thank you Curtain Store.... Beautiful."*

★★★★★ by Ian Fullaway
